Design to suit the increasing demand for more filing and storage space in a workstation.

PM series provides an innovative storage solution that is easy to use and manage, versatile and flexible, in keeping with the constant changes demanded by company reorganisation and market globalisation.

PM series comes in 2 easy-to-upkeep melamine finishes. Matte, anti-glare properties of the melamine prevents wear and tear through normal use. Optional accessories, such as pencil tray and side to side suspended filing, provides the user freedom in organising his workstation.

STORAGE CABINET

All PM series storage are available with security locks. And for quick, simple levelling, they are fitted with four levelling glides that are accessible from inside.

CREDENZA

FLIPPER BIN

The overhead bins have mechanisms that provide soft closing action.

PEDESTAL

Mobile pedestal for additional personal storage space. Also available in a stationary model that fits under standard work surfaces.

LATERAL FILE CABINET

A look that blends with your office environment.
